

Schappacher White Architecture D.P.C. | Shelter Island, NY | Wallace K. Harrison Modern Historic Preservation

Design Statement: "In 1931, architect Wallace K. Harrison designed a summer-use extension to Aluminaire House adding a series of circles. The estate, listed on the National Register of Historic Places, represents the leading edge of the International Style. It has now undergone a complete restoration and expansion that honors the architect's original design intent while satisfying the needs of a 21st-century family."

Chosen by: Suzanne Slesin: "What I like is the simplicity and minimalism. The bathroom is a seamless and modern space that fits in perfectly with the notion of classical minimalism. The materials—wood, polished marble, chrome hardware— help create a calm and functional space."
